ABOUT ME

I have a calm and peaceful personality and I like to improve myself by learning new and up to date skills.

I gained experience in sales, stock-markets, finance and education within my previous jobs. I had a respectful relationship with the teams I worked with. I am emphatic and tolerant, but also motivated to complete tasks and objectives that where required by the employer, or even by myself. I have a creative thinking and I appreciate a creative enviroment where ideas are evaluated as valuable.

I always ask myself to put in the best that I can do at work.

EDUCATION

Computer Science, Courses / Conferences, Online

Software Development Academy (București)

2022 - present | 1 year

Since the beginning of the course I had obtained knowledge of HTML5 (classes, attributes), CSS (Flexbox, Responsive Web Design, Grid) and basics of Javascript(ES6, OOP, functions). I developed, along with the help of trainers some simple applications (mathematical calculator, a responsive web page, a hero game using Javascript-OOP).

I came across the way to use GIT and the Command Line within projects.

I studied the usage of the frameworks, such as Bootstrap, Tailwind, and also, design apps as Figma, Anima, AdobeXD, Zeppelin etc.

Projects developed during the course can be found on my Github profile - in the header of the CV.

The following modules will be:

Advanced HTML and CSS

Advanced Elements of JS

CMS

Development Tools

JavaScript Frameworks

Testing

Final project
The course will end in April 2023.
